

Restaurant Operations & Service Standards Manual

1. Operational Objective

The purpose of this manual is to establish consistent restaurant operating procedures that ensure food quality, operational efficiency, guest satisfaction, and profitability.

2. Daily Opening Procedure

Opening Manager Responsibilities:

1. Unlock premises and perform safety inspection.
2. Verify POS systems are operational.
3. Review reservations and expected guest volume.
4. Confirm staffing levels.
5. Conduct kitchen readiness check.
6. Verify inventory availability for key menu items.

Opening checklist completion target: 100%.

3. Food Preparation Standards

Kitchen teams must:

- Follow approved recipes.
 - Use standardized portion sizes.
 - Record temperature checks.
 - Label prepared ingredients with preparation dates.
 - Maintain clean workstations throughout service.
-

4. Inventory Management

Inventory counts shall be performed:

- Daily for high-value ingredients.
- Weekly for standard inventory.
- Monthly for full stock audits.

Inventory variance exceeding 3% must be investigated.

5. Menu Item Quality Control

Each menu item should meet:

- Approved presentation standards.
- Portion specifications.
- Taste consistency requirements.
- Food safety regulations.

Items failing quality inspection must be remade.

6. Order Accuracy Procedures

To reduce service errors:

- Servers repeat orders to guests.
- Kitchen staff verify tickets before preparation.
- Expeditors confirm items before release.
- Managers monitor accuracy metrics.

Target order accuracy: 98% or higher.

7. Reservation Management

Hosts shall:

- Confirm reservations daily.
- Maintain waitlists.
- Manage table assignments.
- Communicate delays promptly.

Guest wait times should be minimized through effective table management.

8. Table Turnover Guidelines

Target turnover periods:

- Lunch: 45–60 minutes
- Dinner: 75–90 minutes

Staff should balance efficiency with guest experience.

9. Customer Complaint Resolution

When handling complaints:

1. Listen actively.
 2. Acknowledge the concern.
 3. Apologize when appropriate.
 4. Resolve immediately if possible.
 5. Escalate unresolved issues to management.
 6. Record significant incidents.
-

10. Delivery & Takeout Operations

Orders received through delivery partners must:

- Be verified before packaging.
- Include utensils when requested.
- Be sealed before pickup.
- Meet dispatch timing standards.

Target dispatch time: Under 15 minutes.

11. Closing Procedures

Closing Manager Responsibilities:

- Reconcile sales reports.
 - Secure cash and payment devices.
 - Verify kitchen shutdown procedures.
 - Confirm cleaning completion.
 - Activate security systems.
 - Lock all entrances.
-

12. Key Operational Metrics

Management should monitor:

- Food Cost Percentage
- Labor Cost Percentage
- Customer Satisfaction Score
- Order Accuracy Rate
- Table Turnover Rate

- Inventory Variance
- Revenue Per Available Seat Hour (RevPASH)

Monthly performance reviews should be conducted using these metrics.

13. Continuous Improvement Program

Management teams shall:

- Review operational KPIs monthly.
- Conduct quarterly staff training.
- Audit food quality standards.
- Evaluate customer feedback trends.
- Implement corrective actions where needed.
